

Aneurisma cavernoso no roto. Síndrome del seno cavernoso derecho. Tratamiento con Stent Flow diverter

		fusiform aneurysm	saccular aneurysm
arterial phase	Grade 0 early, coherent jet		
	Grade 1 patent		
venous phase	Grade 2 unsecured wall/dome		
	Grade 3 secured wall		
	Grade 4 occluded		

(a) Pre post

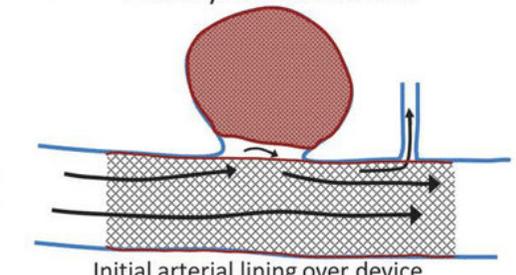

(b) Flow Diverter Implantation

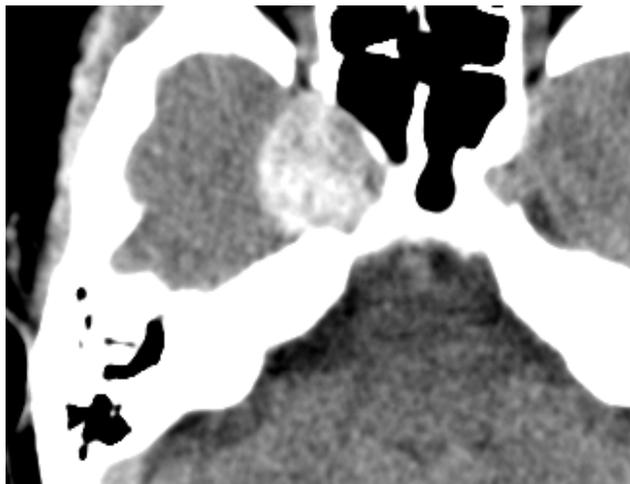

(d) Vessel Remodeling

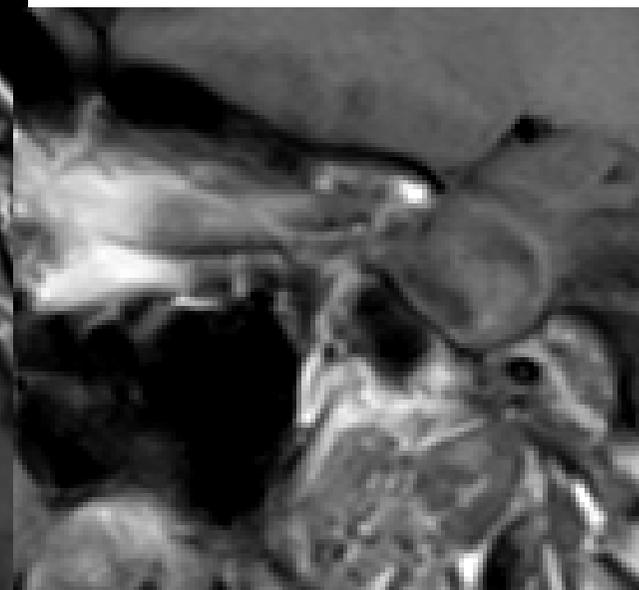

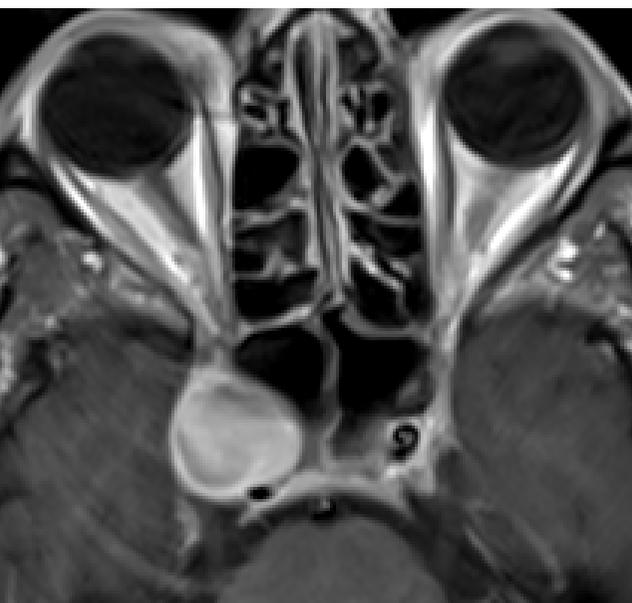

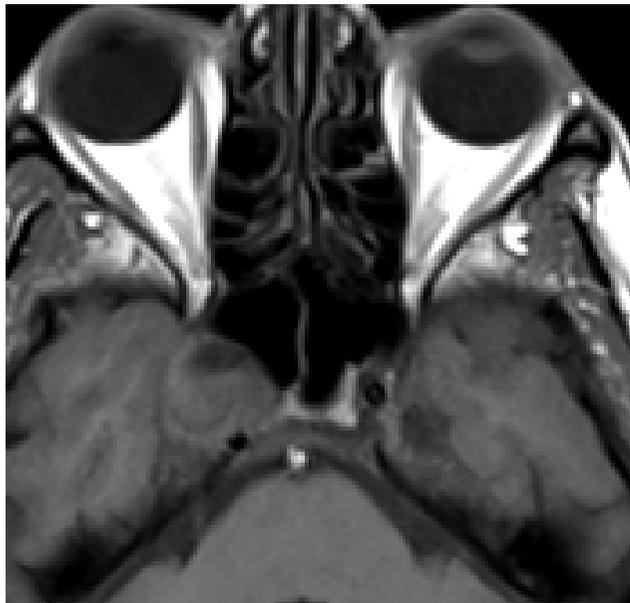

(c) Aneurysm Thrombosis

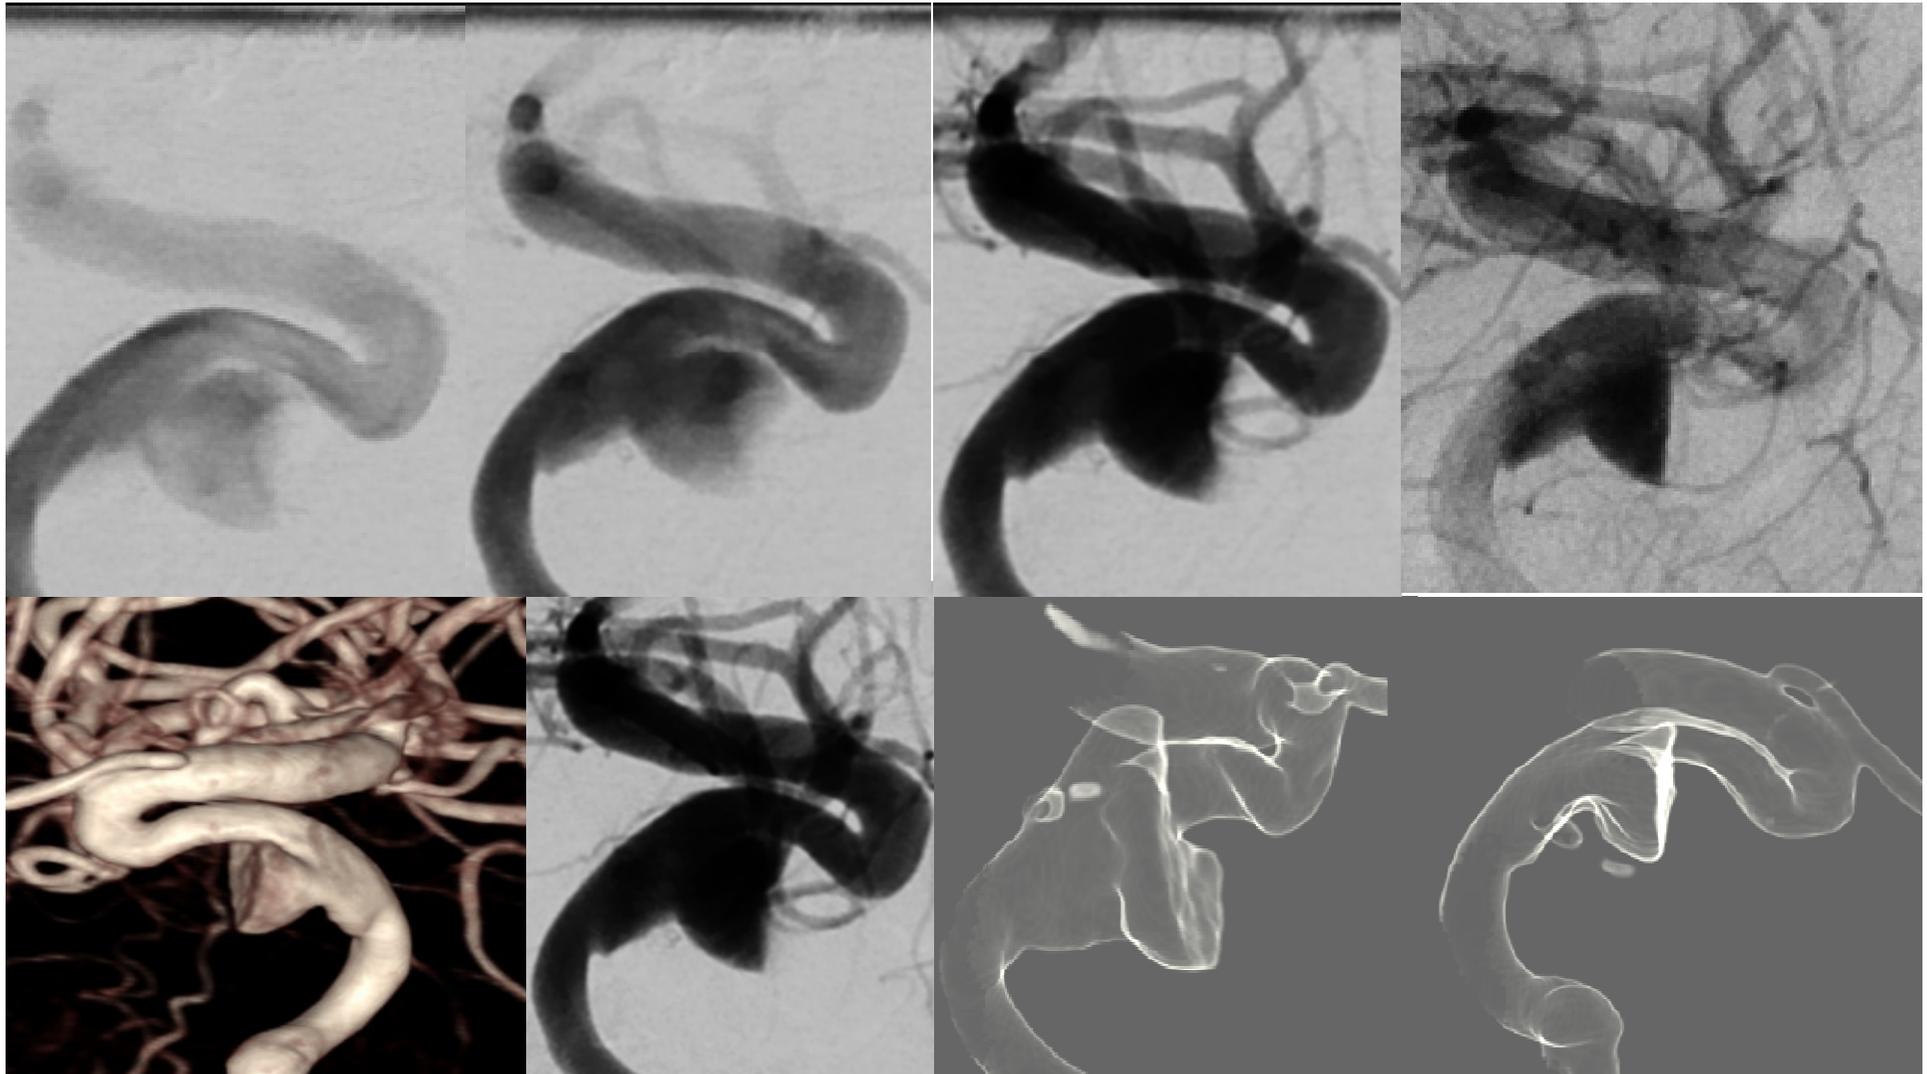

Aneurisma cavernoso-Tratamiento con stent Flow diverter

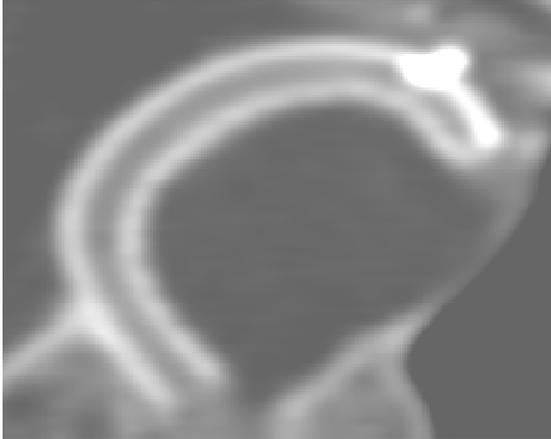

TAC-RM
Lesión hiperdensa-
isointensa con captación
al contraste en seno
cavernoso derecha

Aneurisma cavernoso-Tratamiento con stent Flow diverter Surpass 4mm x 20 mm + stent atlas en extremo distal

Tratamiento

		fusiform aneurysm	saccular aneurysm
arterial phase	Grade 0 early, coherent jet		
	venous phase	Grade 1 patent	
Grade 2 unsecured wall/dome			
Grade 3 secured wall			
Grade 4 occluded
